Pursuant to the resolution dated 24.09.2019 of the Board of Directors of the company TERNA ENERGY FINANCE SA (the “Company” or “Issuer”), the following, among others, have been decided:

(a) issuance of a common bond loan by way of a Public Offer by the Issuer (the “CBL”), of a total amount of up to €150,000,000, of a duration of seven (7) years, divided into up to 150.000 dematerialized, common, bearer bonds, each of a nominal value of €1.000 (the “Bonds”), in accordance with the provisions of Law 4548/2018 and the provisions of Law 3156/2003, that are still in force following the entry into force of Law 4548/2018 (the “Issue”), as well as the approval of the CBL’s specific terms, which constitute the CBL’s programme (the “CBL Programme”) and

(b) that the Bonds will be offered for subscription by investors by way of a public offer (the “Public Offer”), with use of the electronic book-building service (the “E.BB.”) of the Athens Exchange (the “ATHEX”), will be registered at the D.S.S. and will be admitted for trading in the category of Fixed Income Securities of the Regulated Market of the ATHEX.

Moreover, by virtue of the Resolution of its Board of Directors on 25.09.2019, “TERNA ENERGY INDUSTRIAL COMMERCIAL AND TECHNICAL SOCIETE ANONYME” (hereinafter the “Guarantor”) decided, among others, to grant its corporate guarantee in favor of the Issuer for the CBL.

If the CBL is not subscribed for an amount of at least Euro One Hundred Twenty Million (€120.000.000), the Issue will be aborted and the amount corresponding to the value for subscription of each Private Investor will be released at the latest within two (2) business days, without interest.

FIXING OF FINAL YIELD, INTEREST RATE AND OFFER PRICE OF THE BONDS

The determination of the offer price, the yield, and the interest rate of the Bonds, shall be made by way of the process of book building (the “Book Building” process) (the “Book Building”), which shall be kept by the Joint Coordinators and Bookrunners. The Book Building will be implemented by the process of E.BB. in which only Institutional Investors may participate.

The yield range which was determined by the Joint Coordinators and Bookrunners, in accordance with paragraph 3 of article 3 of Decision no. 19/776/13.2.2017 of the BoD of the Capital Market Commission, and within which the Institutional Investors shall submit their subscription statements, is the following:

RANGE	
Minimum Yield	Maximum Yield
2.60%	2.90%

The Joint Coordinators and Bookrunners shall determine the Interest Rate and the Offer Price which constitute the final yield. The Interest Rate may be equal to the final yield or to be lower by up to 25 base units.

The final yield, the Interest Rate and the Offer Price shall be notified to the Capital Markets Commission and shall be published, at the latest, the next business day following the end of the Public Offer.

The methodology for the valuation of the terms of the transaction, namely the final yield, the Interest Rate and the Offer Price provide for the conduct of the pre-marketing process in potential Institutional investors, and as a result of which, the determination of the reasonable yield range, the announcement of the range before the launch of the Book-Building, as per above. Following completion of the Book Building process the final terms of the transaction will be determined, according to the volume of demand per yield by the Institutional Investors, the volume and type of Institutional Investors, the volume of demand by Private Investors to the extent that the final allocation to them will surpass the minimum allocation percentage of 30% as well as the cost that the Issuer is willing to undertake in order to service the Issue.

Indicatively, if the demand by Institutional Investors covers the Issue up to the high end of the yield range but at the same time a material part of the Issue is subscribed at a lower level of yield, the lower level may be selected, even if that would result in a smaller amount of capital raised, if this amounts to a minimum of €120m, which will be set as a condition for the issue of the Bonds.

Concurrently with the determination of the Final Yield and the Offer Price, the final allocation of the offered Bonds will be decided. In any case, the Interest Rate and the Offer Price shall be determined within the announced yield range.

The Interest Rate and the Offer Price will be common for all the investors, Institutional and Private, that will participate in the issue of the Bonds by way of a Public Offer.

Within two (2) business days following the end of the Public Offer, a detailed announcement will be issued by the Joint Coordinators and Bookrunners for the results of the Public Offer, including the Interest Rate and the Offer Price, which will be published in the Daily Statistical Bulletin of the ATHEX.
