## **Start of construction of two new wind parks**

Two new wind parks, with a 50 MW total capacity, are starting construction by TERNAL ENERGY Group.

The first wind park has a 30 MW capacity and is located in Viotia area, in Greece. The second is a 20 MW wind park and is in Poland, the start of construction of which signals the expansion of TERNAL ENERGY in Eastern Europe. The two new wind parks are expected to start operation within 12 months.

With these new wind parks, the total in operation and under construction capacity of TERNAL ENERGY reaches now 302 MW.
