### **Three new wind energy parks with a total capacity of 36 MW commenced operations**

TERNA ENERGY Group commenced operations in three new wind energy parks in Greece. The Group now possesses a total installed capacity of 544 MW in Greece and abroad.

Operations commenced at the following three parks:

- Two wind parks with capacities of 11.7 MW and 6.3 MW respectively, in the Municipality of Alexandroupoli, Evros Periphery.
- One wind park with a capacity of 18 MW in the Municipality of Rhodes, Dodecanese Periphery.

TERNA ENERGY Group has installed energy plants with an aggregate capacity of 302 MW in Greece, 74 MW in Poland, and 30 MW in Bulgaria. At the same time, the Group is in the construction phase or possesses licenses to construct RES projects of total capacity of 308 MW in Greece and abroad.

The Group operates, has constructed or has been granted licenses for RES projects with a total capacity of 852 MW in Europe and America.

By the end of 2014, TERNA ENERGY targets the operation and construction of RES projects totaling a capacity of 1,000 MW in all countries where the company is active.
